

Creating a Healthy School Environment Summary Report

School Name:

Project Title:

Grant Contact Person:

USE ADDITIONAL PAPER AS NEEDED.

Please answer the following questions. Feel free to include additional information that other schools may find helpful in creating a healthy school environment.

1. Please summarize the success of the mini-grant project. Please include lessons learned and what you would recommend for others to do in carrying out this project.
2. Please list three or more significant outcomes of the project.
3. Please list the overall response from the students and school staff in response to the project. Include any quotes you may have!
4. List the challenges and solutions you faced with this project.
5. Please explain, specifically, what components of your newly adopted School Wellness Policy have been addressed by the activities of this mini-grant project. How can you build upon what you have accomplished through this mini-grant project to further support your school/district School Wellness Policy?
6. Additional Comments: Please include any additional information that would be helpful to other schools that want to implement healthful practices for their students, staff and communities.

Please submit this report and budget summary to the Montana Team Nutrition Program upon completion of your mini-grant project.

Deadline: August 31, 2006
